NURTURING TOMORROW'S HEALTH CARE PROFESSIONALS TODAY!

# Highland Hospital Emergency Department

## Shadow Program Internship

The *purpose* of the shadow program is to expose the underrepresented or disadvantaged undergraduate student to a variety of experiences in the acute health care setting at an academic medical center.

The student will directly observe patient care at a busy, *urban emergency department*, learn research design and terminology, learn principles of electrocardiogram tracing and application, splinting and receive didactic teaching during *weekly conferences*.

### Requirements for applicants:

- Undergraduate/College-bound...
- Interested in a healthcare career...
- Disadvantaged/underrepresented background...
- Must commit:
  - 20 hours annually of community service
  - 40 hours a year of shadow experience
  - 20 hours minimum for research project

*The mission of Mentoring In Medicine, Inc. (MIM) is to increase the presence of underrepresented and disadvantaged students in health professional careers.*
